## **1 Introduction**

DANKNUGGETS.

## **2 The STRATEGY-ONE-GOES-HERE Approach**

### **2.1 Assumptions**

DANKNUGGIES.

## **2.2 Model Construction Methods**

DANKNUGGIES.

## **2.3 Application to the STUDY-GOES-HERE**

DANKNUGGIES.

## **2.4 Model Limitations & Appropriateness**

DANKNUGGIES.

### **3 The STRATEGY-THREE-GOES-HERE Approach**

#### **3.1 Assumptions**

DANKNUGGIES.

#### **3.2 Model Construction Methods**

DANKNUGGIES.

#### **3.3 Application to the STUDY-GOES-HERE**

DANKNUGGIES.

#### **3.4 Model Limitations & Appropriateness**

DANKNUGGIES.

## **4 The STRATEGY-THREE-GOES-HERE Approach**

### **4.1 Assumptions**

DANKNUGGIES.

### **4.2 Model Construction Methods**

DANKNUGGIES.

### **4.3 Application to the STUDY-GOES-HERE**

DANKNUGGIES.

### **4.4 Model Limitations & Appropriateness**

DANKNUGGIES.

## 5 Conclusions

DANKNUGGIES.

# Appendix

In this appendix, we feature the R code used to generate the results and visualizations featured in this report. We will feature four primary sections for code: (1) data collection and cleaning, (2) STRATEGY-ONE model selection and analysis, (3) STRATEGY-TWO model selection and analysis, & (4) STRATEGY-THREE model selection and analysis.

## Data Collection & Cleaning

SUMMARY. Comments in the code highlight specific tasks.

```
# Ca$h Money
```

## STRATEGY-ONE

SUMMARY. Again, comments in the code reveal specific tasks.

```
# Ca$h Money
```

## STRATEGY-TWO

SUMMARY. Again, comments in the code reveal specific tasks.

```
# Ca$h Money
```

## STRATEGY-THREE

SUMMARY. Again, comments in the code reveal specific tasks.

```
# Ca$h Money
```
